

## **COVID Procedures and Protocols**

### **Uihlein Soccer Park (USP)**

*November 2020*

#### **Patron Procedures:**

- Each person must complete the CDC Symptom Checker before entering the building. Anyone experiencing symptoms per the CDC guidelines will not be allowed entrance. Anyone who begins to exhibit symptoms while on the property will be asked to leave.
- EVERY PERSON who enters the building must wear a face covering and adhere to 6 ft. social distancing while on park property. Anyone not adhering to the face mask and/or social distancing requirements will be asked to leave, and any fees paid will not be refunded. This means there are no games, scrimmages, group huddles, etc. ONLY socially distanced trainings will be allowed indoors.
- NO spectators are allowed in the building.
- All athletes and coaches must have a completed COVID waiver on file before entering the building.
- All visitors must wash their hands and/or use hand sanitizer upon entrance to the park. Visitors must wash their hands and/or use hand sanitizer regularly throughout their visit.
- Must have their own equipment (all components of the team uniform, own ball for practice/warm-up and own water bottle). There should be no sharing of any items. Uihlein staff will not have any equipment for players or teams to borrow.
- No touch rule – players should refrain from any physical contact with others. This includes high fives and hand-shake lines.
- No spitting is ever allowed at Uihlein Soccer Park.
- All patrons must exit the building within 15 minutes of the end of their assigned rental period. No congregating is allowed.
- No group may have more than 20 people on any field at one time. This is to ensure that proper social distancing can be maintained and follows the “Gym & Fitness Center” rule in the City of Milwaukee Order 4.2 of 1 person occupying every 30 square feet of space.
- Each named rental contact must maintain a list of attendees for each rental session that includes, at a minimum, first and last name, email address and phone number. This information must be supplied to USP if requested to aid in contact tracing. This information must be kept for at least 30 days.
- The Manager on Duty and/or USP staff will be monitoring all activity for compliance. Any patron who does not comply with USP staff will be asked to leave the premises and no refunds will be issued.

#### **Facility Procedures:**

- COVID requirements and safety precaution signs will be prominently displayed throughout the park, including:
  - Face mask requirement
  - Social distancing requirement
  - Requirement of washing hands and/or using hand sanitizer frequently
  - Covering coughs and sneezes
  - No congregating and capacity limitations
  - Entrance and exit only signs (traffic control arrows)
- There is a single direction traffic pattern into the building and a separate one to exit.
  - The back hallway near the restrooms will be utilized to enter the building.

- The front/main doors will be an exit only (with locked doors so no one can enter).
- A hand sanitizer station will be at the entrance and placed at various locations throughout the building.
- Lower level restrooms will be limited to one user per bathroom at a time.
- Both locker rooms will be closed and locked.
- Upper level restrooms are limited to 2 people per restroom at any time.
- Water fountains will be bubble wrapped and not available for use. Only touchless water bottle filling stations will be available.
- Schedules will allow at least 30 minutes in-between rentals to alleviate any congestion in common areas and allow one group to exit before another enters. Groups must leave 15 minutes after their allotted rental time, so staff can sanitize “high-touch” areas between groups.
- The concession stand remains closed.
- USP will NOT be open for open play. Reservations that meet all criteria will be accepted by phone or email only. No drop-ins are allowed.

#### **Cleaning & Disinfecting Procedures:**

- Cleaning & disinfecting will be completed on a weekly basis in compliance with CDC Guidelines.
- USP staff will clean and disinfect common areas (restrooms, front desk, bleacher areas, door handles, handrails, etc.) between every rental group and at the start and close of each day.
- USP will use an approved EPA disinfectant.

#### **Employee Procedures:**

- All employees have completed COVID-19 training requirements.
- Employees will not be allowed to enter USP if they are exhibiting any symptoms of COVID-19.
- All employees are required to take their temperature when entering USP (prior to beginning work). Anyone with a temperature of 100.4F or higher will be required to leave.
- Should an employee exhibit any symptoms while at work, he/she will be sent home.
- All staff must always wear a face covering and practice 6 ft. social distancing from all patrons, vendors, and co-workers when on park property.
- All employees are responsible for ensuring guests, vendors and visitors follow the proper protocols when on park property.

#### **COVID Positive Tests and/or Symptoms:**

- If any employee or patron of USP exhibits any symptoms of COVID-19 (as identified by the CDC) they must quarantine (and will not be allowed to return to USP) for at least 14 days.
- If a patron or employee of USP tests positive for COVID-19 he/she is required to inform USP of the positive diagnosis and will be required to quarantine for at least 10 days and until symptoms have resolved for at least 48 hours.
- Should there be a positive test at the park, USP will notify any person who had direct contact with the positive person.
  - However, because masks and social distancing is required, the group will not be required to quarantine unless he/she has had close personal contact with the infected person (within 6 feet for a cumulative 15 minutes within a 24-hour period). Anyone who is deemed “close contact” must quarantine for 14 days.
- USP will follow all directions as mandated by the Milwaukee Health Department and/or State Health Department, as necessary.
